

Families of the World: Vietnam

1) In Ho Chi Minh City, nine-year-old **Le Thi Thanh Hong** goes to school where she studies French, art and reading and plays games with friends. Her parents both work for the city. The next day Hong enjoys swimming at the community pool and the New Year Tet festivities, including the dragon dancing and fireworks. 2) Four-year-old **Bi** lives by the Mekong River with her family. Her parents work their farm, banana and papaya plantation in the morning, and then, in their "boat store," they sell small livestock, fruits, vegetables and grains to customers on the river.
